HamLETS
Grand Pork's Local Trading
Network

What is HamLETS?

LETS stands for Local Exchange Trading System.

HamLETS is a local trading network of businesses, individuals and commercial organizations.

Members trade goods and services through the exchange of LETS points called "Bacons".

How Does HamLETS Work?

When you join HamLETS you pay a Membership Fee and open a Bacons account to track transactions.

Members receive our LETS Directory (similar to Yellow Pages). New directories are sent to members as soon as they are updated.

You can contact members directly and negotiate trades using Bacons.

You can supply your goods and services to other HamLETS members using Bacons.

You will receive a statement at the end of each year with a list of your trading activities, although account balances can be obtained from HamLETS at any time.
